

KRQ-1

SERIES

DESCRIPTIONS:

- Pressure switch used for air compressors.
- The switch start and stop the air compressor automatically according to the setting pressure value.
- Hydraulics connection can choose:1/4"Male&Female.
- Air-relief valve with delayed closing system.
- Customized setting.

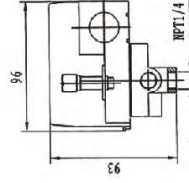

OPTIONALS:

- Crust according to customers' needs.
- Hydraulics connection according to customerneeds*
- Air-relief valve of 6mm or 1/4" diameter pipe.
- Pressure setting according to customer' s needs.

THCHICAL DATA:

- Pressure Range:20-175psi
- Pressure Setting:20-50psi, 30-60psi, 40-70psi, 50-80psi, 95-125psi, 135-175psi
- Rated Current:12A
- Rated Voltage: 110V-240V
- Frequency:50/60Hz
- Max Ambient Temperature:40°C
- Protection Degree:IP20

KRQ-1 TECHNICAL PARAMETERS:

| Padding Size | One Way | Four Way |
|--------------|-----------------|---------------|
| Dimension | 47*44.5*21.5 cm | 51*47*22 cm |
| Quantity | 50 pcs/ctn | 50 pcs/ctn |
| N.W/gw | 19/20.5 kgs | 22.5/24.5 kgs |
